

SOLAR ACCESS
Powering The Future With Renewable

THE FOUNDER

Ms. J. Kranthi Rekha is a visionary entrepreneur with a strong academic background in healthcare, business management, and nutrition. She holds a B.Sc. in Medical Laboratory Technology (MLT), an MBA, and is a Certified Dietician from Singhania University, along with specialized certifications in Clinical Nutrition (NFNA), NLP, and DMIT. Her early career in clinical nutrition and preventive healthcare reflects her deep commitment to improving lives through knowledge and service.

Driven by a passion for sustainability, Ms. Kranthi transitioned into the renewable energy sector with a mission to make clean energy accessible and impactful. She is dedicated to delivering innovative, reliable, and cost-effective solar solutions that empower individuals, businesses, and communities while promoting environmental responsibility. Guided by her vision, ***"From Clinical Nutrition to Clean Energy – Serving People, Serving the Planet,"*** she continues to champion sustainable growth and a greener future.

WHY CHOOSE US

Solar Access provides complete turnkey solar energy solutions for residential, commercial, and industrial clients. We design and deliver customized solar systems tailored to each customer's energy requirements, ensuring optimal efficiency, regulatory compliance, and long-term performance. Our experienced team manages every stage of the project, from site assessment and system design to procurement, installation, and commissioning.

Using advanced engineering tools and industry best practices, we maximize energy generation by evaluating solar exposure, shading conditions, and structural suitability. We source high-quality components and execute installations with precision, ensuring seamless integration & minimal disruption to operations.

To ensure long-term reliability and performance, we offer comprehensive testing, performance validation, and maintenance services. By adopting our solar solutions, clients can significantly reduce electricity costs, improve energy independence, and contribute to a cleaner environment through the use of sustainable, renewable energy.

SOLAR PANELS FOR EVERY NEED

Efficient. Reliable. Sustainable. 

RESIDENTIAL

For Homes

- Power Output: 350W – 550W
- High Efficiency: Up to 21.5%

COMMERCIAL

For Businesses

- Power Output: 550W – 670W
- High Efficiency: Up to 22.0%

INDUSTRIAL

For Large Installations

- Power Output: 670W – 720W
- High Efficiency: Up to 23.0%

PORTABLE

For Travel & Camping

- Power Output: 50W – 200W
- Lightweight & Easy to Carry

SOLAR LIGHTING

For Street & Garden Lights

- Power Output: 10W – 100W
- Durable & Weather Resistant
